Suggestions

Activity: Cut-Up Scrambled Sentences

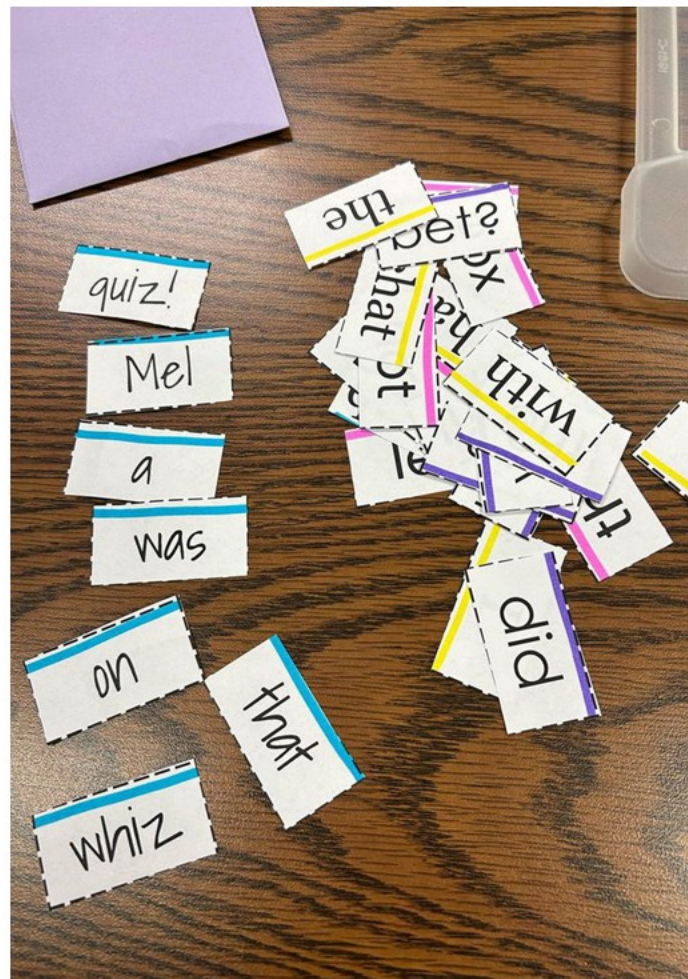

Preparation required: Cut the sentences apart and clip each sentence together. Consider printing a master copy of the sentences as an answer key. If you don't have access to a color printer, you can add a colored line to the top of each sentence to make it easier to sort the sentences later if they get mixed up.

Directions: Give your students one or more sentences and ask them to unscramble the words to make a logical sentence. Some sentences can be unscrambled more than one way.

You can complete the activity together or ask the students to complete it independently. They can:

- Unscramble the sentences and display them on their desk for you to check
- Unscramble each sentence and read it to a peer
- Unscrambled each sentence and write it on a recording sheet

Note: In this product, initial capitals and ending punctuation are included to offer hints.

What are the benefits of unscrambling sentences?

According to the authors of *The Writing Revolution*, unscrambling sentences helps students:

1. understand the concept of a complete sentence
2. improve their knowledge of word order
3. successfully incorporate capitals and punctuation
4. If you incorporate content area material, it provides another opportunity to deepen their understanding of that topic, as well.

When you use sentences that align with your phonics program, your students get all the benefits listed above, plus the opportunity to work with decodable text, which helps develop fluency.
